FRANK CLIFFORD

TWO-PART EVENT

Lecture: 10 a.m. – 12 noon

Workshop: 1 p.m. – 5 p.m.

Morning Lecture: *The Polarity Picture Show*

Frank will take you on a visual tour of the six pairs of opposite signs, and consider what they share, how they differ, and what they can teach each other.

Afternoon Workshop: *New Ways of Relating: Understanding the In-Depth Dynamics of Sign Combinations for Natal, Synastry and Forecasting Work*

One of the most important steps in chart interpretation is understanding the dynamics between the zodiac signs. Grasping the essence of the signs and their points of similarity and difference are the keys to successful natal, forecasting and synastry work. Some connections are easy to spot, such as the freedom-focused, future-orientated duo of Sagittarius and Aquarius, or the home, hearth, gardens and cuisine combo of Cancer and Taurus. But what of Leo and Capricorn? Cancer and Libra? Aries and Virgo? In truth, every pairing has themes in common, as well as components that don't easily fall into place, but pinpointing the "heart" of its connection – the essence of its relationship – often requires further detective work. With many chart examples, we'll spend the day learning to suss out and articulate the dynamics between the signs – how they can really work with each other – so bring along your own charts and stories, too.

Frank Clifford: *Over the past twenty-five years, Frank Clifford has built an eclectic career as a consultant, publisher, columnist, media astrologer, lecturer, and a writer of a dozen books, including his textbook *Getting to the Heart of Your Chart*. Frank lives in England, where he runs *The London School of Astrology* (www.londonschoolofastrology.co.uk) and teaches astrology and palmistry in person and online.
