Astrology of Reincarnation

LECTURE The Mars Retrograde Cycle of 2018

Mars retrograde periods bring some of the most dramatic changes and upheaval. In 2018, it will occur in Aquarius, conjunct the South Node, and the peak of the retrograde cycle will be as Mars conjuncts the Lunar Eclipse of July 27. To add more intrigue to the story, Mars will be the closest to the earth since 2003. Bring your red capes and jumpsuits, and join us on this exciting presentation.

WORKSHOP Astrology of Reincarnation

Is reincarnation real, and if so, can we truly track it in the astrology chart? Maurice will bring compelling and fascinating examples to illustrate some of these concepts and better understand the intricacies of the reincarnation process. We will examine rare cases of ostensible reincarnated souls and see what astrology does or does not reveal. This is a unique opportunity to explore this subject in greater depth.
