Spring 2013

Astrology Forecast by Mark F Dodich

*Fire & Earth
~ Eclipses, too*

Astrology & Intuitive
Consultations
~ since 1980

The planets are lining up in an unusual way early this year. During February and March, there was a stellium (a whole bunch) of planets in Pisces. Many people experienced illness, end of life issues, lack of motivation, sleep issues, and then opening to a higher vision for their life. The tone changed from this watery, emotional energy near spring equinox as several planets moved into "pick up the pace" Aries. Rude awakenings, earthquakes or accidents come in late March, but innovative breakthroughs come too.

This aggressive and ambitious fireball builds into April, so it is a good time to initiate projects that require a good deal of assertive energy. A chart cast for equinox indicates the general tone for the next three months. A challenging T-Square pattern forces you to get moving, in spite of the discomfort change brings.

Expect internal discord as impulsive Aries wants revolutionary change now, but Pluto in Capricorn prefers slow, conservative change. Emotions simultaneously want to stay the course while plunging the inner depths. (See pages 9-10). This contradictory energy will be difficult for the US Congress, and countries in strife. Understand that the hard-headedness the world is experiencing will change, if only because it has to. There is no going backwards now! Like it or not, sometimes the world needs to reach its breaking point before constructive change can happen.

The water element is strong through summer. You get support when you tune into feelings and compassion. Sadly, some people will choose the lower vibration of reactive anger. (Forecast continues Pg 2)

The Dalai Lama Earthlines™ Relocation Astrology

The Dalai Lama is coming to Oregon in May. His Relocation Astrology power lines near his birthplace in Tibet are the Moon ☾ (relates to the people and mother), Saturn ♄ (responsibility, authority figure, restrictions) and Neptune ♆ (spirituality, illusions).

When it was time for him to go into exile, he was invited to India where he has lines that are easier to live under. "Finding your home" lines are the 4th house cusp (IC) of a natal chart. The Dalai Lama has Venus (beauty, harmony) and Ceres (healing, business) in northern India. In China, he has Pluto (power, transformation, death) and Node (spiritual destiny) lines near Beijing. In Washington DC, he has a wounded healer Chiron line (not shown), where he receives polite respect but gets caught between a rock and a hard place due to political power games.

(See the Dalai Lama's temporary power lines in Portland, Oregon this Spring on page 6 and his Seven Soul Ray information on page 5)

(Astrology Report continues from page one)

The impulsive Aries energy will tone down after Tax Day as several planets move into earthy Taurus. In exoteric astrology (worldly stuff), **Taurus is willing to roll up its sleeves and put constructive effort into manifesting needs and desires.** In esoteric astrology (spiritual purpose), **Taurus helps you find your true center and the higher values associated with living in a heightened state of being.** This helps you stay out of the emotional drama. You do not escape the world, but you can see and live beyond the emotional fears that energetically drain you.

(See 4th Ray www.astromark.us/soulraydefined.htm)

All of this is brought to light, or should I say darkness, through three eclipses from April 25-May 24. One downside near the end of April is a feeling of heaviness or depression as responsible **Saturn pulls you apart to create a better you.** At the risk of sounding Pollyannaish, going to the emotional depths from time to time is healthy. (See more on the three eclipses on page 6).

On a fun note: Pleasure-loving Venus is in fun and flirtatious Gemini starting at the solar eclipse, May 9 until June 2. She is a love and money planet, so it is a very good thing when she aligns with lucky Jupiter on May 28.

Get Lucky May 28 Venus aligns with Jupiter

It would be auspicious to take a short trip around the Memorial Day weekend (May 27). The May 24th lunar eclipse is in adventurous Sagittarius and restless Mercury aligns with travel planet Jupiter. Although many people prefer to hide at an emotional lunar eclipse, why not hide in the great outdoors. Jupiter loves to be in nature.

June sets the tone for bigger things to come. Communications planet Mercury is in family-oriented Cancer starting May 31. Because Mercury will be retrograde in Cancer starting June 26, its normal three-week pass through a sign will last nearly three months. Add to that, Venus will be in Cancer June 2-27. All of that prepares you for big Jupiter spending a year in Cancer starting June 25 (More on that in the summer solstice issue).

Cancer represents home, family, food, nurturing, residential real estate and the disease cancer. On the soul level, the spiritual Cancer nourishes the spirit, rather than simply feeding the body.

June provides a preview of a year-long process that shifts your emotions and lifestyle to a place where your priorities are to feed your soul, to participate with people/ activities that enhance your well being.

7 RAY SOUL PURPOSE ESOTERIC ASTROLOGY

This is an astrology consultation based upon a branch of astrology known as Esoteric Astrology. Where regular (exoteric) astrology uses the planets to help you, esoteric astrology goes further to give you the universal frequencies called Rays that you were born under.

Knowing the "rays" you were born under helps you activate the speed button of spiritual growth and service.

Think of a chess board that has more than one level of playing field. Everyone operates on the base level to take care of core life needs. **Those who have decided that their life is about spiritual growth and service resonate with this consultation.**

Even if you think you know why you are on planet earth, this consultation offers insight and help in creating maximum benefit for yourself. This work comes from the books of Alice Bailey as explained by Djwahl Kuhl.

It includes information on your current cycles. Excellent for taking your astrology chart to a soul level.

EARTHLINES™ for Martin Sheen

Leo Sun and Moon, Aquarius. Asc. 8/3/40

I enjoyed the movie "The Way" starring actor Martin Sheen. It is interesting to see how his personal power lines reflect his role in the movie. Sheen plays the role of a father who did not support his son's choices in life, and then has to go to Europe to recover his body (played by his actual son Emilio Estevez) after his death walking the Camino de Santiago (a sacred pilgrimage path of St. James that has been walked for centuries by seekers). Sheen has a major power line of Mars ♂ which represents physical exercise-and you need that if you are going to walk almost 500 miles! The lower vibration of Mars is anger, and his character had to deal with anger issues on the path.

There are also minor energies called *parans*. The horizontal, dashed lines on the map represent minor lines where you must blend planetary energy. Sheen has Neptune ♃ and Vesta ♁ (spirituality and sacred service) and Pluto ♇ and the Node ♋ (death and destiny) lines across the Camino. His movie role was a religious pilgrimage where he retreated from his worldly country club lifestyle and his destiny found him along the path.

Sheen's movie role accurately reflects his personal planetary power lines in the region. He has Sun ☉ and Moon ☾ power lines off the Atlantic Coast of Spain at the end of the Camino. The Sun represents father, and not only did he play the role of the father, but Sheen's real-life immigrant father was from Galicia at the end of the trail. The moon represents family and mother. His character walked the path for family reasons and there were some deceased mother issues in the movie. And if that is not enough to show you that these maps really work, Sheen's real life mother was born in Ireland (not shown) under his mother-ruled moon line.

Sheen makes his home in Malibu, California where his closest power line is the asteroid Vesta (not shown). **Vesta is about sacrificing things of a lower order to bring a higher service to the world.** He is well known for activism in speaking up for the rights of those who cannot speak for themselves (such as whales) and has been arrested in peaceful protest numerous times.

Is the St. Malachy Prophecy for Real?

One of the controversial topics going around now that a new Pope is stepping into leadership surrounds the prophecies of 12th century Archbishop Morgair of Ireland. His 112 short phrases were published in 1595 and have been dismissed by the Catholic church as inaccurate forgeries.

However, like many prophecies, there is an element of truth; that in this case, asks if the lineage of popes is coming to an end. Pope Benedict XVI has been tied to a prophecy associated with olives, suggesting he was the next to last pope (although the prophecy allows room for unknown popes in between the specific papal prophecies).

"In the final persecution of the Holy Roman Church, there will sit Peter the Roman, who will pasture his sheep in many tribulations, and when these things are finished, the city of seven hills (Rome) will be destroyed, and the dreadful Judge will judge his people. The End"

Time will tell if the prophecy is true or if it even relates to the incoming Pope. Even if it is true, is the interpretation correct?

A chart cast for Vatican City (6/7/1929 11 AM) shows a Gemini Sun and Moon. Transiting Jupiter is moving through Gemini and V.C.'s 10th house of public image, so this is an auspicious combination (lots of visitors and media attention). At the same time, transiting Saturn in Scorpio is opposing several planets in Taurus which suggests uncovering more hidden problems through 2014 (sex, money, power games) . The years 2016-17 present several challenges or transformations in the Vatican City chart, so we shall wait and see!

Soul Rays for the Dalai Lama

July 6 1935, 4:38 AM Takster, Tibet; Sun in Cancer, Moon in Virgo

A soul ray is a universal frequency that each person incarnates on to provide opportunities for growth and service in this life. Where your zodiac sun sign is of our solar system and has a lot to do with personality, a soul ray is more about your larger purpose and spiritual mission.

The Dalai Lama's strongest Soul Ray associated with his natal chart is the 2nd Ray of Unconditional Love and Wisdom. This is the ray where you see through the outer crust of people to connect with the spark of the divine within each person. His Sun Sign is Cancer, the sign of nurturing and taking care of your family; in this case, the people of Tibet. It is a big task to keep your compassion up even when you must do it with the leaders of a country that has done harm to your people.

The 3rd Ray of Abstract Thought and Esoteric Knowledge is almost as strong. This is where you must communicate philosophical truth into a language that all can understand. The Dalai Lama has accomplished this by traveling the world talking to world leaders, movie stars, and everyday people.

The 3rd Ray is associated with his Cancer Sun Sign (and also Libra and Capricorn).

The 6th Ray of Devotion and Idealism calls a person to a path of visualizing the highest good and holding onto that ideal so that he and those who resonate with him can step up into the higher frequency. The 6th Ray is associated with his Virgo moon (and also the signs Sagittarius and Pisces). It serves higher truth.

Read more about the rays on page 2, 18, or at www.astromark.us/soulraydefined.htm

Although your natal power lines stay the same for life, there are also quick moving *transiting* lines and

**“Progressed” Map
May 2013 for
The Dalai Lama**

Progressed lines provide subtle shifts that move through a region over a year or more. The add extra influences to a region on a temporary basis to change the tone of an area.

slower moving *pro-gressed* lines. Transits push you hard and pass through an area in weeks or months. Progressions are inner, psychological shifts that can last for a year or longer. Many people update their personal power lines when they are planning an important trip or a move.

In the case of the Dalai Lama’s power lines maps, he doesn’t have strong natal lines in the Pacific NW. Yet for his

trip to Oregon this spring, he has strong progressed lines. Mercury ♄ rules lots of talk and quickness. He will be here for only a few days and an ongoing schedule of quick presentations. The moon ☾ line has to do with emotions and tuning into the needs of the people. Juno ♃ has a lot to do with temporary partnerships, and he is sponsored by the local Maitripa College during his visit. He has a Uranus progressed (and natal) line in the Pacific NW, so he is participating in a very Uranian topic; technology, the environment and spirituality in action for the environment. So while the Dalai Lama does not have strong power lines in the Pacific NW, he comes for a visit when strong lines are moving through the area.

It will be interesting to watch the Dalai Lama in the news later this summer. Expansive Jupiter will be moving through Cancer. He has both his Sun Sign and Rising Sign being activated by Jupiter in August. This is typically a time when a person goes to a whole new level of expression.

When a planet moves into the first house of a natal chart, it is time to project yourself into the world. It is also a time to make yourself a higher priority, which can either go in a public direction, or it can go in a “claiming more time for himself” direction.

It will be a very challenging situation, because Pluto (power, transformation) and Uranus (technology, freedom, unexpected events) will be activating his natal chart. When Pluto is activating your chart, your life changes in a significant way.

Three Spring Eclipses

The eclipses of 2013 clearly mark a transition. Spring brings three eclipses in Scorpio, Taurus, and the third being the final Sagittarius-Gemini eclipse from the past 1½ year. Autumn brings the first Libra-Aries Eclipse in about 9 years while continuing the Scorpio-Taurus influence. (More on relationship implications in autumn)

Eclipses help you go to the depths of your being to help you understand what your soul wants to do.

When you are aligned with your soul path, you get so much more help from the universe than when you operate from ego-based desires.

The April 25 Lunar Eclipse in Scorpio-Taurus creates “harmony through conflict.” It pulls you apart to help you make space for higher values by which to live your life. It brings hidden emotions up to the surface to help you heal.

The May 9 Solar Eclipse in Taurus is on the exact opposite side of the sky as the intense November 2012 eclipses (think Newtown, CT shootings). Find the natal house in your chart holding 20° Taurus to know what area of your life is activated for productive new efforts. A solar eclipse represents new beginnings that are stimulated from the core of who you are. (See page 11)

Taurus is willing to get to work to bring those new values into physical manifestation to build your needs and desires.

The May 24 Lunar Eclipse is the last in Sagittarius-Gemini for the next nine years. This eclipse is lighter and more fun, so take a short trip or create a quick adventure.

Be willing to adapt and open your mind to new possibilities that take you beyond rigid thinking.

There is more detail on these eclipses at

“Stepping Up Into a New World Reality”

Saturday, April 27 12:00 - 3:00 pm

Whether you see it or not, there is a new vibration on planet earth. Some people define it as a new Mayan Calendar, others by a scientifically measurable frequency increase, or others still by some Pleiadian cosmic shift. Regardless of your perspective, you can feel that something has shifted and there is no going back to old paradigms.

Not everyone will choose to move forward, attempting to stay in an old world frequency that is rapidly falling away. **This workshop is for people who choose to activate the new energies in their daily life.**

We shall use the astrological energies of 2013 to tune into the incoming vibration, and then use short meditation activations to manifest new paradigms into your daily world. We shall call upon the Ascended Masters and use Universal frequencies called the Seven Rays to access higher vibrations.

The intent is to be in human form while allowing your Higher Self vibration to come through, transforming the physical world.

Making the Most of Mercury Retrograde

When astrologers want to prove that astrology works to non-astrologers, it is common practice to have them watch personal and global events during the next Mercury Retrograde cycle. This is an effective real life demonstration, but it can have a negative result. "Oh no, not another Mercury Retrograde!" is a common reaction. But there is so much more to Mercury than your car or computer giving you anxiety attacks.

Join us to learn about taking advantage of Mercury retrograde. We shall look at shadow periods, connections between the three retrograde each year, its effect on individual & business natal charts, and much more. Because Mark never passes up a chance to bring esoteric astrology into his talks, we shall also look at the higher, spiritual vibration of Mercury and this year's retrograde cycles. Mark has Virgo rising, so you are certain to take home useful information.

Spring Equinox March 20 2013 4:02 AM PDT

The "kite" shaped pattern in blue contains a Grand Water Trine (big blue triangle part of the kite) and two pleasant parts (the smaller blue triangle). This creates a strong harmonious pattern, but it has an edge on it to keep you from getting lazy. The motivational T-Square (red) ties into the kite, and all of these energies are the key to the next three months. The moon opposite Pluto call for emotional release and healing at the deepest levels. Both make a challenging ninety degree square to the energetic Sun, aggressive Mars, and explosive Uranus (in the black circle). This can bring earthquakes and political changes, and aircraft accident can happen under this influence. A more positive interpretation is that you can pull yourself together to pioneer new paths and explore innovative possibilities. The kite pattern helps your emotions to go through this transformation more easily.

Spring Equinox Power Lines Map

See chart previous page

One technique used to look at weather patterns and earthquake zones is to look at the equinox and solstice maps, and looking at maps for eclipses helps as well.

A Earthlines™ (AstroCartoGraphy®) Map for Spring Equinox 2013 shows major power lines coming up the USA east coast, and down through Chile. Other hot zones (circled) include Africa and eastern Europe and the Pacific Islands down through New Zealand. The other area is China, the Phillipines, Indonesia, and Malaysia.

Pay particular attention to the South Pacific and the Malaysia/Indonesia because they got hammered with earthquakes since last winter solstice and are being activated once again. Also, there is a solar eclipse on May 9th and the path is very similar to the one last November 2012, from northern Australia and across the South Pacific. There were massive earthquakes in Vanatu, fires/drought in Australia, and earthquakes in the Phillipines.

This is not to do predictions of doom and gloom, but my experience does show that when an area is activated by challenging planets in the same locations from a solstice to an equinox (or an eclipse), then they are more likely to be in the news for earth and political changes. See the spring equinox chart on the previous page as it shows a challenging T-Square between difficult planets of Mars, Uranus and Pluto.

Power lines for the Solar Eclipse

The solar eclipse path in May is nearly on the same path as Nov. 2012, except this one is in Taurus and the previous was in the opposite sign of Scorpio.

Although this is not a major eclipse the hot zones are circled, meaning that they get the most activation.

Watch for news in Australia, Papua New Guinea, New Zealand and the South Pacific. The Nov. 2012 and May 2013 solar eclipses are like bookends stimulating you to go to the hidden emotional depths in order to heal and transform, and then to manifest a higher set of values by which to live. Look to see how events of fall 2012 are shifted by spring 2013.

Basically, you are being pulled apart between last fall and this spring. You get to look at your priorities and your changing values. What will you release and what will you produce in the coming months?

Pictures associated with the Seven Rays. Ancient mystery school teaching and the work of Djwal Kuhl (books by Alice Bailey) tell us that seven universal rays come out of the Oneness to focalize their energies through our solar system. We choose to incarnate with specific rays being dominate within our makeup during this incarnation. See www.astromark.us for details on the Seven Soul Rays and Esoteric Astrology Consultation. Here are photos for your meditation altar to help you tune into these energies.

Ray One: Chohan El Morya; Archangel Michael– Will of God, Unity, Oneness

EM1: El Morya, master of the First Ray of will and oneness. This great 19th Century master was an Indian prince who taught the masters Kuthumi and Djwal Khul. On a visit to London, he first approached the young Mme. Helena Blavatsky and revealed her life's path. He directed her work, and assigned to Kuthumi the creation of the books she received. He oversees all of the rays, so you can call upon him for Universal purposes.

MF: Archangel Michael and Faith– protector and archangel of the will of God and oneness.

MC1: Archangel Michael, and his divine complement Faith, stand for protection, deliverance, and faith. Working for the blue first ray, they magnify God's power and strength. They cut away all that is unreal. Artwork copyright Marius Michael-George.

MC2: Archangel Michael boldly wielding his sword.

Ray Two: Chohan Lanto; Archangel Jophiel– Love of god, Love of wisdom

LT: Lanto, lord of the Second Ray of unconditional love and wisdom. A Chinese master who developed the light in his heart so fully that it shined like a golden sun through his flesh.

Ray Three: PV, CH1 Chohan Paul the Venetian, Master Rakoczi; Archangel Chamuel– Activie Intelligence, Communicate high concepts to all.

Ray Four: Chohan Serapis Bey; Archangel Gabriel– Harmony through conflict

SE & SE1: Serapis Bey is thought to be one of the teachers (Luxor, Egypt) of ascension for planet earth and the lord of the Fourth Ray of harmony through conflict and beauty.

GA3: Archangel Gabriel, God's messenger and archangel of the Fourth Ray of harmony through conflict and beauty.

Ray Five: Chohan Hilarion; Archangel Raphael– Concrete Knowledge, Science

HL: Hilarion– A mystic who spent 20 years in the desert preparing for his mission, then healed thousands of people. The fifth ray is a teacher of teachers.

RL & RL2: Archangel Raphael– the healing angel and archangel of the Fifth Ray of concrete knowledge and science. Metaphysics comes into the physical under this ray.

Ray Six: Chohan Nada; Archangel Uriel– Devotion, Idealism

NA: Lady Nada: refers to "nothingness" due to her great humility and lord of the Sixth Ray of devotion and idealism. Burst through illusions to see Truth. Focus on the ideal.

UR: Archangel Uriel and his feminine complement, Aurora, acting on the purple and gold rays, bring us the selfless flame of love used in devotional worship and service to all life. Seek help from them when you need renewed dedication to achieve goals, or when you want to give selfless service to others.

New & Now Available: FIXED STAR REPORT \$50

(includes USA first class postage, international add \$5)

The ancients paid more attention to the stars than the planets. Now, modern astrology returns the stars to the chart.

- 1) There is one report that is easy to read and friendly for non-astrologers. It will include two written reports on your stars; over 50 pages written by two international authorities on fixed stars in astrology. 2) A map showing power lines of stars that were at significant positions for your region (USA, Europe, etc.). This map is like the Earthlines (AstroCartoGraphy) except showing star lines instead of planets. This is fairly easy to use— just look up the letter on the line and read a brief interpretation. If you want a full interpretation of the planetary lines, a good book to purchase is "Fixed Stars" by Bernadette Brady. 3) This piece is not friendly to non-astrologers. It is a listing of stars that are in aspect or paran to your natal chart. There is a brief explanation, but you would need to be able to combine the meanings of the planets and the stars to take advantage of this section. Items 2 & 3 are less user friendly to non-astrologers. This report does not include any personal time from Mark Dodich to help explain the sections that require more astrological knowledge.

The information will give you added insight into who you are in this life. This is cutting edge astrology, merging ancient and modern. **Note:** Do not expect this report to tell you when you will meet the mate of your dreams, get the new career, or other aspects of the mundane world. Parts of this product are not user friendly to non-astrologers. **Provide birth data.**

Soul Rays for MAHATMA GANDHI

This Great Soul brought independence to India through his Seventh Soul Ray. A person activates their soul ray when they choose to serve a higher good beyond their small self. The 7th is the ray of *transmutation* (changing energy that is less than loving into Love). It is the energy of magic. A 7th Ray person Initiates a New Order. Gandhi’s soul purpose was to transform worldly conditions.

Gandhi’s Personality Ray was the 5th Ray of Concrete Knowledge and Science. He had a systematic approach to his work which was especially shown earlier in life as he studied to become an Oxford graduated attorney.

“Gandhi continues what the Buddha began, In the Buddha, the spirit of Love sets itself the task of creating different spiritual conditions in the world; in Gandhi it undertakes to transform all worldly conditions.”

~*Albert Schweitzer*

(This quote reflects Gandhi’s 7th Ray Soul)

What is a Seven Soul Ray consultation?

This reading uses esoteric astrology and methods to calculate the frequencies (rays) that you incarnated on in this life. You will learn about your soul and personality rays. This information is based in the channellings of the Tibetan Master Djwahl Kuhl through Alice A. Bailey. Understanding the ray upon which you have incarnated helps you to work more fully with your energies of soul service. This reading is best for people who have reduced the need to ask “what’s in it for me?” and increased the need to know, “what is my soul purpose and spiritual service in this life?” This is an esoteric astrology consultation that looks at how you can bring your soul service into earthly form.

More information is at www.astromark.us
