CHRIS BRENNAN

TWO-PART EVENT

Lecture: 10 a.m. – 12 noon

Workshop: 1 p.m. – 5 p.m.

*Morning Lecture: **Interpreting the Rulers of the Houses and Timing Their Activation***

One of the keys to chart delineation is learning how to interpret the rulers of the 12 houses when they are in different houses. For example, what does it mean when the ruler of the 7th house is in the 11th house, or when ruler of the 10th is in the 9th? In this lecture attendees will learn how to interpret these placements, as well as how to identify when the topics associated with them will become activated at specific times in the life of the native by using a timing technique known as annual profections.

*Afternoon Workshop: **Timing Peaks and Transitions in Your Career, Health, and Relationships***

In this workshop you will learn how to time peak periods and transitions in a person's career and life direction by using an ancient timing technique known as Zodiacal Releasing. This technique was only recently rediscovered through the translation of a 2nd century text, and it is quickly becoming recognized as one of the most powerful and effective predictive techniques available today. Attendees will receive a detailed handout with their own periods, and they will learn how to use the technique to determine high and low points in their career, as well as periods in which job changes are more likely. Later we will discuss how the technique can also be applied to other topics such as health and relationships.
