Energy Astrology - (Lea)

Lecture: AstroHealing

Each planetary aspect has a correlation with specific energy and emotional patterns. With AstroHealing we can heal our challenging aspects in all three levels - mental, emotional and physical. We do this by learning the correspondence of different vibrational essences (Flower, Animal and Gem essences) with planets signs, houses and planetary aspects. In this lecture we'll understand the concept of AstroHealing and see the practical results using charts of people who have already applied this approach and see how much they have changed for better, fulfilling the real intentions of planetary aspects and positions of their natal charts.

Workshop: Energy Astrology

Each man is a universe within himself. The planets, therefore, represent energy centers within the etheric body. From these energy centers, the whole destiny of the natal chart manifests. Energy Astrology describes the nature of the ten energy centers and their natal chart "signatures." It also explains practical exercises for bringing them into balance, i.e., for correcting negative planetary scripts. It blends cutting-edge knowledge of energy exercises, planetary essences and energy psychology about the connections between chakras and planets. The Energy Astrology program was created and developed by Dr. Lea Imsiragic, M. Sci in magneto biology at the medical faculty (a new discipline that discovers how electromagnetic fields [chakras] work in our body). She combines knowledge from different fields (magneto biology, energy psychology, flower essences and acupuncture) with astrology, enabling her to create a unique system of diagnosis and healing with Energy astrology.

Dr. Lea Imsiragic is an MD in magneto biology in the medical faculty. She is an ISAR CAP, consulting skills trainer, and member of ISAR Board for consulting skills. Aleksandar Imsiragic (ISAR CAP) is ISAR Education Director and founder of the Johannes Kepler Astrological Institute in Belgrade, Serbia. He has been an astrologer for more than 25 years, teaches meditation, has written eleven astrological books, and has organized annual International Astrological Conferences in Belgrade since 2001. His work is based on a synthesis of Western and Eastern traditions of knowledge, and his special interests are in the fields of fixed stars, karmic astrology, and astro-healing.
