ASTROLOGY**
FOR WESTERN ASTROLOGERS

Vedic astrology is known for accurate predictions. This intensive will teach the Western astrologer how to incorporate the predictive tools used in Vedic astrology. This class is meant to add to your current knowledge giving a resource of valuable information. What you will take away is a more in-depth understanding of the houses (additional meanings), how to use the Vimshottari Dasha System (Vedic predictive tool), and how to apply the transits based on the strength of the planets. You will never look at a chart the same after hearing what Joni has to say.
