ECLIPSES AND YOUR DESTINY

August 28, 1 p.m. - 4 p.m.

Eclipses are historically known as transformational and often intense periods, both individually and collectively. On the personal level, Eclipses act in a particularly potent manner that can initiate rebirth, transformation, and regeneration.

During this lecture we will take a cosmic exploration into the Astrological meaning of ***Eclipses***. Together, we will discover how the upcoming September duo relates to your personal Destiny. You will also learn how to detect the difference between a South Node vs. North Node Eclipse, and how to apply this understanding to your life.

A Master Astrologer with more than 25 years of experience, Linda Kaye holds a B.A. in Astrological Arts and Sciences from Kepler College in Seattle. She teaches workshops and classes and leads seasonal events timed to planetary happenings, while maintaining a busy Roseville, Calif.-based astrological practice where she conducts client sessions in person, by phone and through Skype.
