## RICK LEVINE

### TWO-PART EVENT

*Lecture (part1): 10 a.m – 12 noon*

*Workshop (part2): 1 p.m. – 5 p.m.*

## 12 PRACTICAL STEPS to Better Chart Readings

Whether you're doing readings for fun or money, whether you're doing 15-minute or 90-minute sessions, the approach is the same. Einstein wrote, "99% of genius is knowing what's important." You have plenty of techniques in your toolbox yet seek something more in your client work.

This practical hands-on workshop will improve your chart consultation skills by presenting useful concepts designed to alter your approach and enable you to more profoundly touch your clients. But concepts only go so far. This workshop will focus on where the rubber meets the road. We will gather birth data for random participants and these charts of attendees will be analyzed in real time by Rick to demonstrate natal delineation and transit interpretation techniques.

Participant's charts will be projected real time for all attendees to learn from each other's charts. Emphasis will be on getting to what's most important quickly, enabling attendees to speed-read a natal chart along with outer planet transits
