MARCH 2014 MEETING

AUSTIN COPPOCK

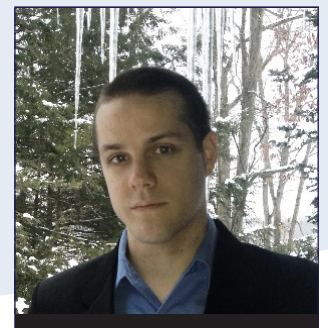

# WAR AND PEACE

## THE NODES IN LIBRA AND ARIES

In February 2014, the Nodes shift into Libra and Aries, where they will reside until November

2015 - a full 18 months. The Node's time in this pair of signs designates, for individuals, a period of personal evolution and karmic rebalancing, with plenty of implications for the larger world, as well. This year and a half long eclipse cycle intersects directly with the ongoing Uranus Pluto squares, promising a variety of dramatic results. We'll look at Nodes' effect on both personal and collective, with lenses borrowed from traditional astrology, contemporary evolutionary astrology and Vedic astrology.

*Austin R. Coppock, is an astrological consultant and the current president of the AYA (Association for Young Astrologers). Austin has written extensively on astrology, including hundreds of columns, dozens of articles, and Astrological Almanacs for 2011-2014. He has been featured in the Mountain Astrologer as well as the CLAVIS Journal. Furthermore, his work on the decans, The Thirty Six Faces, will be published by Three Hands Press in early 2014. Austin's approach to astrology is rooted in tradition, yet open to contemporary developments. His work encompasses the critical and often ignored overlap between astrology and magical traditions, such as Hermeticism. Contact Austin at [ac@austincoppock.com](mailto:ac@austincoppock.com) or visit his website at [austincoppock.com](http://austincoppock.com).*

**Sunday, March 23, 2014**
