*Join us for our June 2015 Meeting!*

## LINDA BYRD

# EXPERIENTIAL ASTROLOGY

### PLUS CHART INTERPRETATION

Learning Astrology is usually a left brained activity. We show up, take copious notes and then try to remember what we learned. This workshop is different! You will be involved in getting to know yourself through the lens of Astrology, from a feeling perspective. Find out what's lurking in your psyche, shed light on and address what Steven Forrest so eloquently states as a fundamental issue we all face.

*“Who we really are is in conflict with our social conditioning. The psyche demands resolution of this schism and the resolution is typically quite dramatic. There is resentment regarding other people’s expectations and a desire to avoid being defined by them. The universe is asking us exactly what price we’ll pay for honesty, integrity and freedom. “*

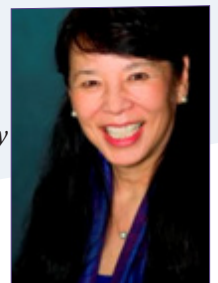

*~Steven Forrest*

While understanding is part of the solution, engaging feelings gives a deeper level of awareness and the key to freedom! Depending on how much time we have, these are some of the questions we will be addressing:

- **When you act like this, what are you avoiding?**
- **How do you want people to perceive you? Why?**
- **What makes you most happy? Experience your tribe!**
- **What inner voice holds you back?**

This workshop requests pre-registration with your birth information emailed to Linda at [fullofgratitude@comcast.net](mailto:fullofgratitude@comcast.net). by June 21st.
