CHET ZDROWSKI

THE NEPTUNE PLUTO SYSTEM

PLUS CHART INTERPRETATION

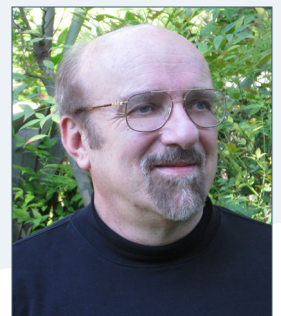

The outer planets in our solar system each reflect distinct transformational processes. They function within the individual psyche, and yet they represent forces far beyond

the individual. Dane Rudhyar called them “Ambassadors of the Galaxy”.

Neptune’s enormous gravity keeps Pluto in an orbital resonance; they seem to operate as a system. The cycle of Neptune Pluto conjunctions and oppositions reflects major shifts in human consciousness and civilization. We will look at this approximately 500 year cycle through the lens of cultural and psychological evolution.

Within an individual, Neptune and Pluto represent the forces of psychological and spiritual evolution. Each has its own methods and each process must be honored. We will look at the ways each is integrated into various spiritual practices and psychotherapies. The evolution of human values, the rise and fall of civilizations, and our inner transformational processes, are all part of the Neptune/ Pluto system and its dramatic cycle.

Chet Zdrowski has been a student and practitioner of astrology since 1977. He studied for several years with the late Richard Idemon, and is deeply influenced by the work of Dane Rudhyar and Robert Hand. Since 2005 he has studied with Steven Forrest in his Evolutionary Astrology Apprenticeship program. Psychology, meditation, perennial philosophy and music are also lifelong passions. Chet’s approach is grounded in the real world experiences of parenting, marriage, business and the work world. His greatest pleasure is to alert people to their unique gifts, to inspire them to move forward on their unique individual path, and to help them move through the patterns that limit them and cause unhappiness.
