## SHAMANIC ASTROLOGY AN INTRODUCTION

LECTURE

*1 p.m. – 3:30 p.m.*

Shamanic Astrology, developed in the 1980s by Daniel Giamario, is a paradigm without judgment and has roots in the experiential nature of the sky. It is holistic, honoring the totality of light and shadow with us all and makes use of the archetypal knowledge from Jung in relation to the 12 signs. Shamanic Astrology takes a fresh and revolutionary look at the natal chart and we embody it in our lives. The Ascendant represents our incoming identity and the Moon our old identity, as examples of how it shows up within us all.

I will cover the major principles of Shamanic Astrology in this presentation, along with a brief look at what differentiates Shamanic Astrology from mainstream western astrology. I will also cover briefly how the elements and modalities are seen, including why this paradigm is called “Shamanic” astrology. Secondly, I will share about how cycles/transits are seen as “initiations”, helping to move us from one phase of life to another or “initiating” us in the mysteries of that planetary process as we evolve into who we are intended to be in this lifetime.
