**The Divinatory Art of Horary Astrology**

### **LECTURE** Connections in Horary Astrology

As astrologers, we seek to form connections between the microcosm and the macrocosm through interpretation of planetary symbolism. Horary astrology often accomplishes this as a standalone technique, and yet each horary necessarily carries the signature of larger astrological cycles being unfolded. This talk explores horary's relationship to natal, electional and resolution charts, and how these connections impact upon our understanding of the power and purpose of astrology.

### **WORKSHOP** The Divinatory Art of Horary Astrology

Horary astrology is a remarkably decisive technique that allows both astrologer and client to cut to the chase of a seemingly unsolvable dilemma. Through chart delineation, the client's range of options are assessed and thoroughly explored. In this workshop we will study the guiding principles of horary technique, using both historical and modern examples. We will explore charts related to relationships and pregnancy, career and finance, missing objects and more, with a mind to what is generalizable across fields of questioning. Suitable for all levels, regardless of prior horary experience.
