

LINDA BYRD

BRINGING YOUR CHART TO LIFE

SELF DISCOVERY THROUGH THE LENS OF ASTROLOGY

Learning astrology is usually a left-brained activity. We show up, take copious notes and try to understand what we learned. This workshop is different! Whether you are brand new to astrology or a gifted professional, through this interactive format you will discover new insights as to how your beliefs, behaviors and judgements have been silently running your life. These different parts make up your “inner committee.” Some are guiding you to exactly where you want to be and some may be sabotaging you, keeping you feeling unfulfilled and stuck. Where did these thoughts come from, why are they there and how can you bring harmony to your life? This workshop provides an avenue for a deeper exploration into who you are, what gifts you possess and how to best turn limiting beliefs into tools of empowerment.

- **Take charge, awaken and trust your own knowing**
- **Consciously collaborate with your inner committee**
- **Honor and embrace all parts of who you are**
