ALAN CLAY

SEDNA AND DWARF PLANET ASTROLOGY

Discover the evolutionary spiritual power of Sedna, the new esoteric outer limit of our solar system and learn of the profound implications for society and for each of us individually in the coming years, as she approaches her closest point to Earth. The discovery of these new dwarf planets represents an evolutionary change in consciousness that is available to us at this time. In this talk Alan provides a framework to understand our busy new solar system and how the dwarf planets extend traditional astrology into a richer and more spiritual perspective on the chart.

New Zealander Alan Clay has been a practising astrologer for over 40 years, with a background as a humanistic astrologer inspired by the work of Dane Rudhyar. Over the past 20 years this has broadened into a study of Chiron and the Centaurs and more recently into the newly discovered Dwarf Planets. His book, 'Sedna Consciousness, the Soul's Path of Destiny' was very well received at it's launch at UAC in Chicago and reviewers have called it: 'a ground-breaking book', 'essential reading for astrologers', 'a well-written, well-researched, and easily readable book', and 'a treasure trove of information and inspiration'. Book reviews and more at www.dwarfplanetastrology.com/sedna-consciousness.

Sunday, May 17, 2020
2 - 4:30 p.m.
