LINDA KUBOTA BYRD CHART READING MADE EASY

There is so much information in a chart, where do you start? I know many of you have been studying astrology for years, but don't think you know enough and are hesitant to read charts for clients. Or, you're new to astrology and getting a bit confused as to how to organize and share what you're learning. Or, you've been reading charts for years and you're open to explore another approach. Or, you'd just like to learn more about yourself!

Join us on June 28 where I'll be sharing an enhanced protocol of what I learned from two amazing astrologers and my first teachers, John Ruskell and Gavin Carruthers. They gave us a step by step guide to dive into a chart, moving from the macro to the micro that's so easy, even your clients can follow along. Let's take advantage of this Capricorn energy to organize your approach so that you have the confidence to give others the gift of astrology. Bring your chart, and if you don't have one, let us know and I'll bring one for you. This is going to be informative, insightful and fun! Hope you can make it!
