## ÖNER DÖŞER

# HINTS ON SOLAR RETURN CHARTS

**S**olar Return charts may be considered annually and they are one of the most reliable techniques for the prediction of annual events in

the native's life. This technique, which was used by the masters of Traditional Astrology and elevated by French astrologer Jean Baptiste Morin, is still used today. A Solar Return chart provides us specific information for each new year of our life, gives us information on our situation regarding where we live as well as if we were to move to another place. It also works with Electional Astrology and Astrolocality. In this presentation, Öner Döşer will introduce this technique, which also works with Transits, Profecions and Lunar Returns, and provide examples with sample charts.
